How Every Sufferer from Varicocele and Lost Manhood Can Be Cured, and the Wasted Powers of Manhood Permanently Restored.

ADVERTISE.

WE CURE VARICOCELE IN FIVE DAYS.

We want to talk or write to every man who is afflicted with varicoccle or its results—nervous debility and lost manhood. The question of good health should be of vital interest to every man. We cannot understand how any man will stand i'lly by and see his manhood slipping away from him and his health being undermined, when he knows that he can be safely cured. Our entire professional career has been devoted to the study and treatment of sexual diseases, and the fact that we are doing the largest practice in St. Louis proves that we are skilled and successful in the practice of our specialty. It is just as easy to do good work as poor, and much more satisfactory; we realize that cured patients are our best means of advertising. Every patient receives our personal attention, our very best services, and when you place yourself in our care, you may rest assured that you will receive the very best treatment obtainable and that you will be cured in the shortest time possible. We have perfect confidence in our ability to cure every case of varicoccle and lost manhood that comes to us for treatment; and we feel that it is our duty to let the public and suffering mankind know it. In so doing we not only benefit ourselves, but help afflicted men who would otherwise suffer in silence, not knowing where to seek a cure.

VARICOCELE—Varicoccle is man's most prevalent and insidious disease; it is a condition of enlarged and broken-down variety of the left scrotum; feels like a bunch of earth worms. There is a faulty circulation of the blood to be polsoned with stagrant, clotted blood. You become nervous, despondent and irritable your memory fails, your old-time energy is lacking, you cannot concentrate your mind on your work, you grow weaker and weaker vitally, and ultimately become but a wreck of your former self. It makes no difference what the cause—be it injury, overwork or excesses—you have the disease, and it is very important that you be cured without delay.

Young Man, are you afflicted with Varicocele? You surely must realize that it is very essential to your future health, happiness and success that you be cured of this dread disease at once. We are thoroughly familiar with every sympton of this condition, and knowing as we do the awful results of neglect, our sympathies are enlisted with every sufferer from the disease.

Throw Away Your Suspensory—Suspensories, Medicines, Electric Belts, etc., will never cure this disease. They may give you temporary relief, but what you desire is a safe and permanent cure.

Throw Away Your Suspensory—Suspensories, Medicines, Electric Belts, etc., will never cure this disease. They may give you temporary relief, but what you desire is a safe and permanent cure.

Our Electro-Chemic Method of treatment is your refuge; it is the only positive cure for Varicoccle, outside a dangerous, wide-open surgical operation. Our treatment is entirely painless and devoid of danger. It has all the advantages to be derived from the rurgical operation, but none of the many disadvantages. Under our treatment the stagnant blood is forced from the dilated veins, all soreness and pain disappear, the veins resume their normal size and a healthy circulation of pure blood to the parts is established; you are strengthened in every way—Physically, Mentally and Vially.

Why not take preventive measures before it is too late? If your typewriter is broken, you have it repaired immediately. Why not be as considerate of your own person? It is a duty you owe yourself and family that you be cured at once.

We have cured over 10,000 of the most complicated cases of Varicoccle, and have yet to have a failure or recurrence. We give a written guarantee in every case accepted, and we can prove to the most skeptical that we are doing just as we claim. We have ourselves tried all the different methods of treating this disease, and know from actual experience that we can give you the quickest, safest and most reliable cure obtainable.

SEXUAL DEBILITY—Of all the diseases to which man is heir, none is more serious in its nature and destructive in its progress than Sexual Debility of the strongest constitution, breaks young men are rulned through sexual ignorance, abuse, overwork and excesses; at 30 they are prematurely old and weak, and very few at 40 are enjoying perfect manhood. No man who has transgressed the laws of nature, who has been indiscreted in his youth or indulged in later excesses is safe until such time as the results of these errors have been removed or corrected. Our special treatment for weak men acts by ov

CORRESPONDENCE Most cases can be treated successfully at home. One personal visit is preferred, but if it is impossible for you to call at our office, write us a full description of your case as you understand it, plainly stating your symptoms. We make no charge for consultation and examination. We do an office practice only, and you will find us in from 9 a m. to 8 p. m.; Sundays, 9 a. m. to 1 p. m.

LAKE DISAPPEARED BETWEEN TWO DAYS.

Inhabitants of the Valley of Oetzthel, in the Tyrol, have just been witnesses of a remarkable event. The waters of the Lake Vernagther, formerly the pride of the valley, have suddenly disappeared.

The village watchman is positive that when he passed the banks of the lake the night before the remarkable discovery the lake was in its usual condition. The fact, however, remains that in the morning nothing but the bed of the lake was left to show that Lake Vernagther ever existed.

The bed of the lake was much too muddy to admit of any extended investigation as to the cause of the sudden disappearance of the water, and so it was not until some weeks had elapsed that any attempt toward that end could be made. In the meantime

THE LAKE THAT DISAPPEARED.

the banks of the quondam lake were constantly crowded with curious villagers, some of whom waited in the firm belief that the prodigal waters would return as suddenly as they had disappeared.

On the trees growing near the lake some wag had caused to be posted large notices, headed, "Lost. Strayed or Stolen," to the effect that a reward would be paid for the return of the missing waters and 'no questions asked." Another notice exhorted the missing waters to return and all would be forgiven. Needless to say, these notices had no effect.

When the bed of the lake was sufficiently dry, an examination was made, which revealed the fact that a large opening had been broken through the bottom of the lake, and through it the waters had undoubtedly

Cunard races in the colors of Green B. Morris, who, like the owner of Sister Jeanie, halls from Mis-rouri. Cunard was much the best colt in souri. Cunard was much the best colt in the First Trial, winning as he pleased in the fast time of :47 for a half mile, with 123 pounds on his back. This performance stamps Cunard as a colt of considerable class. He is said to have plainly outclassed his field. His stable companion, Golden Cottage, finished second in the stable, having defeated Corrigan for the place by the narrow marrin of a head place by the narrow margin of a head. She was bred at Rancho del Paso in California. Sister Jeanie was much the best filly in the race. She was off fifth and won pulled up by six lengths. Flora Pomona got away sixth and ran second, finishing one length in front of Zirl, who was second at the start, and ran third the rest of the route. Zirl's stable companion, Corrigan, who is by imp. Fred Cook, the St. Louis bookmaker, has a right shifty sort of a racing tool in St. Wood, winner of his last three starts at Oakland. St. Wood is a 5-year-old chestnut horse by St. Blaise-Woodflower. He ran six furlongs in 1:14 flat the other day, defeating Dollie Weithoff, Loving Cup and Boundlee. Cook had the nerve to enter this horse for \$300 in a selling race last Thursday. St. Wood came "home on the bit," and when offered for sale was promptly "boosted" to \$800. The owner protected the animal. It is doubtful if \$1,500 would buy St. Wood.

Atkin & Lottridge, who have made a lot of stake entries at the Fair Grounds, seem to have a right shifty youngster in Glendenning, by St. Carlo-Glenlivet. This 2-year-old has won his last three starts at San Francisco. He ran a half mile in 49 flat with 109 pounds up, and then came right back and stepped three furlongs in

Tom Nepper, the veteran trainer, passed through St. Louis last week on his way to Memphis. Tom spent the winter at New Orleans. the coming season.

Eitholin is still winning races. The 6-year-, old son of Lothen and Mrs. General Gilfora scored at New Orleans the other day. He is now performing in the colors of W. C. Smith. Eitholin was the best coit in George C. Bennett's stable the year he was a 2-year-old. That was in 1896, when Tom Nepper was handling Bennett's horses, and "Buttons" Garner was the stable jockey. Eitholin won several stakes for Bennett in his 2-year-old form. Afterwards the colt trained off and Bennett sold him for a sons. After a long rest Eitholin developed into a good race horse again. In his 4 and 5 year old form he was one of the most useful horses on the Western incult.

Woodtrice, who formerly raced in the colors of Charlie Van Studdiford, the St. Louis turfman, was returned a winner at New Orleans the other day. This horse now belongs to the firm of W. & J. Carroll. He is by Woodmoss-Cantatrice, and was bred by Doctor A. W. McAllister of Columbia, Mo. Woodtrice showed to be a good colt in his 2-year-old form, and he might have developed into a good horse if he had only been lucky enough to fall into the right hands. Woodtrice was always a handy sort of a racing tool in heavy going. He disposed of the black horse Colonel Gay over that sort of a track in his last race.

Hughes & Elliott's crack race mare The Light, by Uncle Jess-Barbary Maid, is now at her best. She has won her last two starts at Cakland. Thursday she ran six furlongs in 1:14%, winning handly from a fair lot of selling platers. In her previous race she ran the Oakland Futurity course in 1:11%, with 112 pounds up, winning easily from The Benedict, Good Hope and Miss Rowena. The Light raced here last season and scored frequently at the Fair Grounds and Kinloch Park.

The Missouri-bred 2-year-old Doctor Scharff, by Donald A.—Missouri, that is now racing in the name of J. W. O'Neall & Co. at San Francisco, seems to be as handy on a heavy track as he was over fast going. At Oakland the other day Doctor Scharff picked up 118 pounds and ran a half mile in :52 over a track that was very heavy. Frank Bell ran six furlongs in 1:17% with 100 pounds on his back. Doctor Scharff was bred by the late C. C. Maffitt at the Goodwood stud. Lew Cahn owns the colt's dam, Missouri, by Luke Blackburn. dam, Missouri, by Luke Blackburn.

"This match was the attraction of the season, and was played on the home team's ground in South Africa. The last time these teams met was in 1831, when the match ended in a very unsatisfactory manner (to the British, at least). This time the visitors brought over 20000 supporters of the game, and were without doubt a team that any one would be proud of.

"The home team won the toss for choice of grounds, and Joubert kicked off. They at once became aggressive, and were getting dangerously near the visitors' goal, but White at back was playing a sound game, and repelled attack after attack when the home team seemed bound to score; in fact, the visitors' backs, B.-P. and White, were playing grandly, and, although the home forwards were in the visitors' territory, they failed to score. (Oh, shades of Dundee, Stormberg, Elandsinagte, Spion Kop and Tugela, listen to that?) The Empire' forwards now began to get into their stride, and French, working like a machine round his opponents, completely beat Cronje, and with a swift lightning shot he found the net with a beauty (Kimberly). Soon after this goal Cronje was dismised the field (Panrdeberg), thus weakening the home defense. Buller, who had all along been playing a steady game (very steady, indeed), was now seen to advantage

It is fortunate for the professionals who expect to compete in the national open championship that Myopia happened to be the applicant for the award. Otherwise they might have found themselves in the embarrassing position of being expected to play a phenomenally good game on a phenomenally bad course, It is a curious fact that in this country professional golf has little attraction for the ordinary golfer. While there is always a keen conets over the award of the amateur and women's championships the professional tournament is usually left begging. Practically any club that wants it can have the championship, although it would seem as if a professional contest was the one above all others to have the very best links available. Not much is known about Myopia here, except that it is up in Hamilton, Mass., and is the home of a rather prominent polo clique.
